13

14 % the percentage of the total running time of the

15 time program used by this function.

16

17 cumulative a running sum of the number of seconds accounted

18 seconds for by this function and those listed above it.

19

20 self the number of seconds accounted for by this

21 seconds function alone. This is the major sort for this

22 listing.

23

24 calls the number of times this function was invoked, if

25 this function is profiled, else blank.

26

27 self the average number of milliseconds spent in this

28 ms/call function per call, if this function is profiled,

29 else blank.

30

31 total the average number of milliseconds spent in this

32 ms/call function and its descendents per call, if this

33 function is profiled, else blank.

34

35 name the name of the function. This is the minor sort
